TELLS OF BELGIUM FOOD DIFFICULTIES

H. C. Hoover Declares People of That Country Buy Food for Less Than Americans.

That bread has been selling for 20 per cent less in Belgium for the past two years than in the United States, was the statement made yesterday at the University Club by H. C. Hoover, American Relief Commissioner in Belgium, at a luncheon given in his honor by about seventy-five friends in the Governor's service. Chicago wheat is used in the Belgian bread.

"Of course," said Mr. Hoover, "no profit is being made on the bread sold to the Belgians."

Mr. Hoover, who is now in the United States to stir up the American people to more generous giving for the Belgians, told of the work which he and his assistants have been doing in Belgium for the past two years.

Portrayed Conditions.
He portrayed some of the conditions among the people there, who are unable, though they have plenty of money, to get enough food. The work of the American Relief Society was to feed 10,000,000 people daily with such care that none would be starved.

The Belgian people have been very much concerned about the past few days, Mr. Hoover, over the threatened hostilities between the United States and Germany. Should actual warfare break out it will mean the discontinuance of the relief work in Belgium, thus throwing the Belgians upon their own resources.

Guests of Honor.
Secretary of the Interior Lane and Chief Justice White were the guests of honor at a reception given to Mr. Hoover Monday evening by Hennen Jennings. Mr. Hoover spoke briefly, telling of the great need for more assistance in Belgium.

The luncheon was arranged by a committee consisting of Van H. Manning, director of the Bureau of Mines; George Otis Smith, director of the United States Geological Survey; Capt. A. F. Lucas, of the American Institute of Mining Engineers; A. H. Brooks, of the Mining and Metallurgical Society of America, and J. F. Callbreath, of the American Mining Congress.

Washingtonians Present.
Sixty-nine residents of Washington who are directly interested in the mining industry were present. They were Falcon Jolin, Philip S. Smith, R. B. Marshall, G. W. Coggerhall, Whitman Cross, Henry S. Washington, Frank Sutton, W. C. Mandenhall, Willis L. Moore, Arthur Keith, F. G. Cottrell, A. F. Lucas, Edward T. Taylor, George Otis Smith, F. L. Ransome, J. B. Umpleby, Charles S.
